PROJECTS

SnapShare Contacts (Contact Sharing App)

Tech Stack: Java, XML, Android Studio

[Play Store Link](#)

- Developed and launched a mobile application on the Google Play Store for quick contact sharing using QR codes
- Implemented QR code generation containing user details, allowing instant contact saving via scanning
- Enhanced user experience by optimizing QR code scanning speed by 40%, reducing manual entry errors

Trace Hub (Lost and Found Management App)

Tech Stack: Flutter, Firebase

[Play Store Link](#)

- Designed a mobile app to streamline lost and found item management on college campuses
- Created a centralized platform for reporting lost items, tracking found items, and facilitating returns
- Increased campus-wide adoption, reducing unclaimed items by 50% through user-friendly reporting

ACHIEVEMENTS

2-Star Coder at CodeChef (Max: 1549)

Published two mobile applications on the Google Play Store

Secured a global rank of 3247 in TCS CodeVita Season 11

Achieved global rank 276 in CodeChef Starters 92

SKILLS

Programming Languages: C(Fundamentals), Java, Python

Web Development: HTML, CSS, JavaScript(Basics)

Frameworks: Flutter

Tools and Technologies: Git, GitHub, AWS

Competencies: Data Structures and Algorithms, OOP, Problem Solving, DBMS, OS

CERTIFICATIONS

- Python Foundation Certification
- AWS Academy Cloud Foundations

CODING PROFILES

- Codechef Profile
- Leetcode Profile
- CodeForces Profile
